A MESSAGE FROM THE DIRECTOR:

The Alabama Criminal Justice Information Center (ACJIC) is pleased to present the fifth annual Crime in Alabama report. This report covers the seven major index crimes, with a separate section on Arson. These data were reported by the State's law enforcement agencies during 1980. The crime statistics are compiled for the entire State, the State's eight Standard Metropolitan Statistical Areas (SMSA), Sheriff's Offices, and municipal police departments.

Requests for additional information may be directed to this office or to the Statistical Analysis Center, ACJIC, 853 South Court Street, Montgomery, Alabama 36130; telephone (205) 832-4930.

It is our hope that this report will provide a comprehensive picture of crime in our State during 1980. We are proud to be a part of the Alabama criminal justice community.

Sincerely,

R. W. Blaylock
Director

PREFACE

This report is the undertaking of the Statistical Analysis Center (SAC), a component of the Alabama Criminal Justice Information Center. SAC is responsible for analyzing and disseminating criminal justice statistics.

The 1980 Crime in Alabama report is intended to inform law enforcement officials and private citizens of criminal and law enforcement activity in Alabama; these data are then used for analyzing crime problems inherent in the criminal justice system and as a foundation for planning and budgeting.

Geographic areas covered in this report include the State of Alabama, Standard Metropolitan Statistical Areas (SMSA's), county and city strata. A 1980 Crime by County report is contained in Appendix A.

We would like to extend our appreciation to the Uniform Crime Reporting Section of the Alabama Criminal Justice Information Center for the data used in this report. Thanks are also due to law enforcement agencies -- sheriffs' departments, municipal police departments, and campus police -- for their cooperation in the UCR program.

INTRODUCTION

In October of 1975, Act 872 passed both houses of the Alabama Legislature creating and establishing the Alabama Criminal Justice Information Center (ACJIC) which is commissioned to collect, store, retrieve, analyze, and disseminate criminal justice data. Inherent in ACJIC is a "uniform crime reporting system for the periodic collection and analysis of crimes reported to any and all criminal justice agencies within the state." (Act 872, § 9, 1975)

As a result of Act 872, 1976 was the first year that mandatory reporting was required of law enforcement agencies in Alabama; prior to 1976, law enforcement agencies participated in the FBI's Uniform Crime Reporting System (UCR) on a voluntary basis. Mandatory submission has resulted in a 185% increase in reporting over 1975.

Alabama's UCR program functions in accordance with FBI standards of operation, i.e., a uniform data collection device and quality control procedures which provide viable crime statistics and an accurate indication of crime and crime trends.

ACJIC has recently initiated an incident-based reporting system as an alternative to UCR. The Incident-Based Reporting System (IBR) provides a self-contained internal recordkeeping system for the agency as well as data for ACJIC to generate UCR.

IBR is a voluntary system with 49% of Alabama's agencies participating. Law enforcement agencies have the option of utilizing IBR instead of UCR summary since comparable data elements can be obtained from IBR forms. All the information obtained by the investigating officer is recorded on the IBR forms and a copy is sent to ACJIC. This information is more detailed in nature than requisites for UCR. This wealth of information provides great potential for better services, analyses, and resource studies by both individual agency's crime analysis units and ACJIC.

Alabama's law enforcement agencies are supplied with monthly reporting forms, either UCR summaries or IBR forms. ACJIC's Technical Assistance field staff are made available to the reporting agencies to help answer any questions which may arise regarding forms, crime classifications, and clearance data. The Technical Assistants are also responsible for training law enforcement personnel and maintaining the quality of information for output to the criminal justice system.

When the UCR summaries or incident reports are returned to ACJIC, they are reviewed for accuracy by the quality control section of UCR. Then, the Alabama UCR program furnishes the FBI with monthly data for their verification and review process.

CRIME AND ARREST DATA

Studying criminal activity is one of the best ways to combat crime. Valid crime data can provide a solid foundation for statistical analyses, management-oriented analyses and crime breakdowns. These projects can then aid local police departments in laying out patrol districts, assigning patrol units, and designing community education programs.

Data used in this report is provided by the Uniform Crime Reporting section of the Alabama Criminal Justice Information Center. Both UCR Summaries and Incident Report forms are submitted to ACJIC's UCR section which is the depository for reported offenses and has the responsibility of collecting and disseminating crime data.

In 1980, a total of 369 agencies reported known offenses to Alabama's UCR; 49% of Alabama's law enforcement agencies submitted Incident Reports and 51% returned UCR Summaries.

Through a mandate of Congress, Arson is counted as a Part I Offense. So as not to distort percentage changes in total Index Crime and Property Crime, Arson totals will not

be included in these sections but will be included in a separate section on Arson which follows the section on the property crimes.

Crime data are obtained from the Part I Index of Offenses submitted by law enforcement agencies to Alabama's UCR program. These Part I Offenses are divided into Violent Crimes and Property Crimes.

Violent Crimes include Homicide, Rape, Robbery, and Assault. These crimes are considered violent inasmuch as they are offenses perpetrated against a person(s) with a high risk of injury or death to the victim(s).

Property Crimes are comprised of Burglary, Larceny, Motor Vehicle Theft, and Arson*. Property or Non-Violent Crimes lack the aspect of force and/or bodily harm to the victim(s).

Clearance and arrest data are also reported to Alabama's UCR. A crime is considered cleared when enough evidence is found to charge a suspect and take him into custody. It is conceivable that one arrest could clear several offenses or that several arrests could clear one offense. A crime may also be cleared by exceptional means in which a solution to a crime is found without formal charges being brought against a suspect. The clearance rate is achieved by taking the number of clearances over the number of crimes reported.

*A separate section on Arson will be included in this report.

This report is a composite picture of criminal and law enforcement activity in Alabama for 1980. It provides a breakdown for the State, the State's eight Standard Metropolitan Statistical Areas (SMSA's) and localities participating in the UCR program. The report concentrates on the Index Crime of the FBI's Part I Offenses and offers tabular and narrative formats for comparisons, trends, rates, and percentage changes.

TOTAL INDEX CRIME

Total Index Crime is comprised of the Part I Offenses: Homicide, Rape, Robbery, Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson*. Both crime and arrest data are collected for Part I Crime.

* * * * *

In 1980 the Total Index Crime reached 188,062*. This is an 18% increase over 1979 figures. The crime rate for Alabama reached 4867.4 crimes per 100,000 people in 1980 which is a 15% increase over 1979's crime rate of 4222.1.

Of the Total Index Crimes reported to law enforcement agencies in 1980, 9% of those reported were considered Violent Crimes with 91% being Property Crimes. Violent Crime experienced an 11% increase while Property Crime showed a 19% increase.

All Violent Crimes reported experienced an increase with robbery showing the greatest increase, 23%. Rape experienced a 10% increase and reported assault increased by 6%. Larceny

*In order to keep crime statistics meaningful, Arson data will not be included in Part I totals or Property Crime totals. A separate section on Arson is included in this report.

effected the greatest increase of the Property crimes, 21%. Burglary showed a 20% increase and motor vehicle theft had a 3% increase.

*Based on female population

Of the 188,062 reported offenses, 30,470 were cleared producing a 16% clearance rate. Violent Crimes experienced a 45% clearance rate and 13% of the Property Crimes were cleared.

There were 29,757 persons arrested in Alabama last year for Index Offenses. Seventy-nine percent of the persons arrested were adults. The 25-29 age group accounted for 4,366 arrests or 19% of the adults arrested. The 30-39 year group effected 4,180 arrests or 18% of the total number of adults arrested. Eighteen year olds accounted for 2,200 arrests or 9%. Forty-two percent of the adults arrested were white males and 40% were black males. White females made up 8% of the adult arrests and black females, 10%.

A total of 6,362 juveniles were arrested for Part I Index Crimes in 1980. Seventeen year olds accounted for the greatest number of juvenile arrests, 1,685 or 26%. Sixteen year olds accounted for 24% with 1,537 juveniles in that age group arrested. There were 225 juveniles 10 and Under arrested for Part I offenses for 4% of the total juvenile arrests. Forty-one percent of the juveniles arrested were white males, 45% were black males. White females accounted for 7% of the arrests as did black females.

Arson totals for 1980 have been excluded from the Total Part I Index Offenses to keep trend data more accurate. There were 1,106 incidents of arson reported in 1980, 756 incidents involved structural units; 263 involved mobile property; and 94 included all other types of property. There were 237 arson clearances for a 21% clearance rate. The estimated value of property destroyed by arson in 1980 was \$11,050,745 for an average of \$9,992 per incident.

* Motor Vehicle Theft rate is based on number of vehicles registered by the Motor Vehicle and License Division, in 1980.

Forty percent of the juveniles arrested were below the legal age to lawfully operate a motor vehicle. There was one juvenile arrested in the 10 and Under age group, 4 in the 11-12 group, 44 arrests in the 13-14 age group and 59 in the 15 year category. Fifty-two percent of the juveniles arrested for motor vehicle theft were white males. Forty-one percent of the juveniles were black males. ARSON

Arson - willful or malicious burning with or without intent to defraud, includes attempts.

* * * * *

Prior to 1979, Arson was classified as a Part II Offense with only arrest data being collected for UCR purposes. Then, as a result of Congressional authorization*, Arson was designated a Part I Offense thereby requiring law enforcement agencies to submit reported offenses, unfounded complaints, actual offenses, clearances, juvenile clearances, arson of uninhabited or abandoned structures and estimated value of property damage.

In 1980, a total of 1,106 incidents of arson were reported to Alabama's law enforcement agencies. It should be noted that the hierarchy rule does not apply to arson, which means that any offense(s) committed in conjunction with arson results in the most serious offense as well as the arson being reported to UCR.

* Title 28, Section 534, United States Code.

Reported arson was up 45% in 1980 over 1979. In 1980, a total of 1,106 arsons were reported as compared to 763 incidents reported in 1979. There were 237 arsons cleared in 1980 effecting a 21% clearance rate. Juveniles accounted for 6% of the clearances.

A total of 56 juveniles were arrested in 1980 for arson. Fifty-nine percent of the juveniles arrested were white males with 25% being black males. White females comprised 7% of the juvenile arrests and black females, 9%. The age group of 10 and Under effected 11% of the juvenile arrests with the 11 to 12 year olds comprising 13% of these arrests. The 13-14 year olds made up 16% of the juvenile arrests and the 15 year group made up 14% of the juvenile arson arrests. Sixteen year olds and seventeen year olds had 18% and 29% of the juvenile arrests, respectively.

There were 221 adults arrested in 1980 for arson related incidents. Forty-eight percent of these arrests were white males and 39% were black males, white females effected 5% of the adult arrests and black females, 8%. The age group responsible for most of the arson arrests was 25-29 with 18% of the arrests followed by 30-34 year olds, who effected 14% of the adult arson arrests.

In 16% of the reported arsons, the structures involved were uninhabited, abandoned, or not normally in use. The total estimated value of property damage in Alabama resulting

Structural units, mobile property and "other" are the classifications used in reporting arson. Sixty-eight percent of the reported arson in Alabama involved structural units; 23% involved mobile property, and the remaining 9% fell into the "other" category. Clearance data indicates that 27% of the arsons involving structural units were cleared with an 11% clearance rate for mobile property and a 6% clearance rate for the "other" category.

Single occupancy residences made up 56% of the structural arsons and 38% of the total reported arson in Alabama in 1980. Of the 420 single occupancy arsons, 115 were cleared for a 27% clearance rate; juvenile arrests cleared 6%. (The arson rate* for single occupancy residences was 28.6 per 100,000 housing units. The arson rate is considerably higher for unoccupied or uninhabited structures, 409.1 per 100,000 unoccupied housing units.) The estimated value of property damage for single occupancy residences was \$3,304,072 for an average of \$7,867 per incident.

Other residences, which include apartments, dormitories, boarding houses, etc., made up 10% of the structural arson incidences. Of the 75 residential arsons, 27 were cleared for a clearance rate of 36%. Juveniles accounted for 5% of the clearances. (The arson rate for residential units other than single

occupancy dwellings was 5.1 per 100,000 housing units. The arson rate for uninhabited residential structures was much higher, 73.0 per 100,000 unoccupied structures.) The estimated value of property damage due to arson for other residential units was \$539,527 averaging \$7,194 per incident.

Fifty-eight of the reported arsons in Alabama in 1980 affected storage buildings such as barns, warehouses, garages, etc. This is 8% of the structural arsons and 5% of the total number of arsons reported to Alabama's law enforcement agencies. Twenty-two percent of these arsons were cleared with 7% being juvenile clearances. Fifteen, or 26%, of these arsons occurred in buildings which were unoccupied or abandoned. The property damage estimate for storage buildings was \$1,336,675 producing an average of \$23,046 per incident.

ances. In 4% of the incidents, the structure was uninhabited or not normally in use. Estimated property damage was \$2,135,745 producing an average per incident of \$18,735.

Community or public buildings such as schools, jails, churches, hospitals, etc., experienced 65 incidents for 9% of the reported structural arsons. Property damage is estimated at \$111,700 for an average of \$7,447 per incident.

All totalled, there were 756 reported incidents of arson involving structural units. Of the 756 arsons, 203 were cleared for a clearance rate of 27%; fifty-eight of the 203 clearances involved juveniles. In 121 incidents, the buildings were uninhabited, abandoned, or not normally in use. The total estimated property damage for structural units was \$9,984,304 with an average of \$13,207 per incident.

Twenty-three percent of the total reported arson in 1980 involved mobile property. For the purpose of reporting arson data, mobile property consists of motor vehicles and other

Estimated property damage for motor vehicle arson was \$813,591 averaging \$3,600 per incident.

There were 31 reported incidents of arson of "other" mobile property. "Other" mobile property includes trailers, recreational vehicles, airplanes, boats, etc. Three offenses were cleared producing a 10% clearance rate. The estimated property damage was \$175,930 averaging \$5,675 per incident.

A total of 257 mobile property arsons were reported to law enforcement agencies in 1980. This is 23% of all reported arson. Twenty-eight of these incidents were cleared for an 11% clearance rate. Juvenile arrests cleared less than 1%. Estimated mobile property damage due to arson was estimated at \$989,521 for an average of \$3,850 per incident.

* Motor vehicle arson rate is based on the number of motor vehicle registrations for 1980 as reported by the Motor Vehicle and License Division, Alabama Department of Revenue.

The miscellaneous or "all other" category includes crops, timber, fences, signs, etc. In 1980, a total of 93 incidents were reported in this category. This is 8% of the total number of arson incidents known to law enforcement agencies in 1980. Six of these offenses were cleared for a 6% clearance rate; juvenile arrests accounted for 3% of the clearances. The estimated value of property destroyed in the "other property" category was \$76,920 for an average cost per incident of \$827.

In summary, there were 1,106 arsons reported to Alabama's law enforcement agencies in 1980. Arson experienced a 21% clearance rate with juveniles accounting for 6% of the clearances. A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

PART 2 ARREST DATA

Part II Offenses include crimes other than those defined as Part I Offenses. The nature of many Part II Offenses is such that they go undetected until an arrest is made; therefore, for UCR purposes, only arrest data is collected. Part II Offenses include:

- . Other Assaults - nonaggravated assaults.
- . Forgery and Counterfeiting - making, altering, uttering, or possessing with intent to defraud, anything false which is made to appear true, includes attempts.
- . Fraud - fraudulent conversion and obtaining money or property by false pretenses.
- . Embezzlement - misappropriation or misapplication of money or property entrusted to one's care, custody, or control.
- . Stolen Property - buying, receiving and possessing stolen property, includes attempts.
- . Vandalism - willful or malicious destruction, injury, disfigurement or defacement of property without the consent of the owner or person having custody or control.
- . Weapons - all violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers, includes attempts.

- . Prostitution and Commercialized Vice - sex offenses of a commercialized nature.
- . Sex Offenses (other than forcible rape, prostitution and commercialized vice) - statutory rape, offenses against chastity, common decency, morals, etc.
- . Narcotic Drug Laws - offenses relating to narcotics, i.e., possession, sale, use, growing, and manufacturing of narcotic drugs.
- . Gambling - promoting, permitting or engaging in illegal gambling.
- . Offenses Against the Family and Children - non-support, neglect, desertion, or abuse of family and children.
- . Driving Under the Influence - driving or operating any motor vehicle or common carrier while drunk or under the influence of liquor or narcotics.
- . Liquor Laws - violations of state or local liquor laws.
- . Drunkenness - drunkenness or intoxication.
- . Disorderly conduct - breach of the peace.
- . Vagrancy - begging, loitering, etc.
- . All Other Offenses - all violations of state or local laws, excepting categories mentioned above, Part I Offenses and traffic violations

1977-78
A total of 189,837 persons were arrested in Alabama last year for Part II Offenses. The arrest figure is up by 48% over 1979 when 127,963 persons were arrested on Part II charges. Ninety-six percent of those arrested in 1980 were adults and 4% were juveniles. Of the total number 55% were white males and 29% were black males. White females comprised 10% of the total and black females made up 6%.

The 25-29 age group accounted for 16% of the Part II Arrests with 30-34 year group accounting for 12%. In all but one of the Part II Offense categories, 25-29 year olds accounted for the greatest number of arrests. The 30-34 age group accounted for the majority of the arrests in the gambling category.

Liquor Laws Violations

Driving under the influence (DUI) resulted in 33,057 arrests with 98% of those arrested over 18. The 25-29 age group effected the majority of the adult arrests, 5,297 or 16%. Of the adults arrested for DUI, 67% were white males, 27% black males, 5% and 1% for white females and black females, respectively. Sixty-eight percent of the juveniles arrested for DUI were 17 year olds. Two percent of those arrested were 14 or under. LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Killed in Action

In 1980, five law enforcement officers lost their lives in the line of duty. Eighty percent of these homicides were cleared by arrest.

Accident or Negligence

One officer was killed in a traffic related fatality. The other incident involved a gun misfiring. Both incidents were cleared.

Felonious Act

Three police officers were killed in 1980 while performing their duties as peace officers.

One officer was killed while giving a speeding ticket; another officer was killed while stopping a suspicious vehicle. Both of these incidents were cleared. The third incident involved a police officer shot and killed by a sniper. This incident has not been solved.

Assaulted

In 1980, a total of 392 law enforcement officers were assaulted in the line of duty. Seventy, or 18%, of these officers received serious injury. The remainder received no injury or minimal injuries.

Responding to disturbance calls effected 31% of the assaults on law enforcement officers. Attempting other arrests resulted in 24%. In both of these activities, personal weapons such as hands, fists, feet, etc., were the most common weapon type. Seventy-five percent of the officers assaulted while responding to disturbance calls were perpetrated by personal weapons.

Eighty-two percent of the assaults while attempting other arrests were perpetrated by personal weapons.

Other high risk activities include handling and transporting prisoners which resulted in 17% of the assaults. Traffic violations and/or mishaps effected 12% of the assaults. Again, personal weapons resulted in the majority of these assaults, 91% and 81%, respectively.

Eighty percent of the assaults on police officers involved hands, fists, feet, etc., with 84% receiving minimal or no injury. Firearms accounted for 11% of the assaults with 76% receiving no injuries. Cutting instruments were used in 3% of the assaults and other weapons in 6%. Records indicate that 85% of the assaults resulting from cutting instruments and 68% from other weapons involved minimal or no injury to the officer.
